I am appalled at the lack of credible process in your effort to ram through the stadium legislation.

I am in favour of an AFL team from Tasmania but not at the cost of future generations of Tasmanians and the sacrifice of the city's amenity.

There is

- No integrity of process
- No mandate
- No social licence
- No final plans • No final or reliable costings

So, in summary

- No to Macquarie Point Planning Permit Bill
- No to parliament acting as a planning authority
- No blank cheque and generational debt
- No to a stadium at Macquarie Point

Merinda Young
