

Community Response to Macquarie Point Planning Permit Bill 2025

You have:

- No integrity of process
- No mandate
- No social licence
- No final plans
- No final or reliable costings

So, here's my say:

- No to Macquarie Point Planning Permit Bill
- No to parliament acting as a planning authority
- No blank cheque
- No to a stadium at Macquarie Point

The LGH still does not have proper aircon or satisfactory temper control in all of its wards.

It shows a lack of respect for our indidenuous people.
