

Community Response to the Macquarie Point Planning Permit Bill 2025

As a member of the concerned community, I reject the Macquarie Point Planning Permit Bill on the following grounds:

- **No integrity of process** – This bill bypasses proper planning procedures and public consultation.
- **No mandate** – The project does not reflect the will of the people.
- **No social licence** – There is widespread community opposition.
- **No final plans** – Key project details remain unclear or undeclared.
- **No reliable costings** – Taxpayers are being asked to fund a project with no transparent or accountable budget.

So, here is our clear response:

- **No** to the Macquarie Point Planning Permit Bill.
- **No** to Parliament acting as a planning authority.
- **No** to writing a blank cheque for an undefined project.
- **No** to a stadium at Macquarie Point.

We demand transparency, genuine community engagement, and proper planning processes—not rushed legislation that overrides democratic principles.
