004	27/05/2025	Janne	Gorman				I do not support the building of this stadium. The State cannot afford it, the location at Macquarie Point is inappropriate; the business case does not stack up.
005	27/05/2025	Tim	Markwell	The rushed legislation is an absolute farce to avoid legitimate concerns brought forward in the assessment for the project of significance. Simply trying to avoid the issues while bankrupting the state for a Rockliff vanity project is absolutely insane.	Addressing the conditions has been performed in a superficial and dysfunctional way, without addressing the true limitations.	Avoiding the real issues achieves nothing. The costs are totally exorbitant, and will disadvantage Tasmania going forward. The proposed work arounds are nonsense and don't address the issues. Selling state assets to try and fund the stadium with a losing business case is criminal.	A [redacted] investigation should be launched, both into the one sided agreement with the AFL, as well as the false announcements about true costs (\$1b+ now), and the borrowing from the tax payer to fund it, even if its hidden behind the development company.
006	27/05/2025	Lynne	Cretan	Enabling Legislation for the Macquarie Point Multipurpose Stadium		Two main points 1. People donâ€™t in general protest when they are in support of something. This means that a vocal minority may often appear to have greater support within the broader community than is true. 2. Some people like me arenâ€™t avid sports fans, but support a multipurpose stadium for exactly the reason that it has uses outside of being a sports arena, and therefore welcome it as an important infrastructure development opportunity in Hobart.	
007	27/05/2025	Kristi	Foale	I support the Bill and the need for exceptional legislation, for this exceptional project and opportunity. Whilst it is important to have rules and structure for good governance of society, our elected representatives need discretion, in exceptionsl situations. And tjis is an exceptional opportunity for growth, change, development in Tasmania. If we keep doing the same things, we'll keep getting the same result.	As above, discretion is required in exceptionsl circumstances, and this oppois just that.	As above	Please build it. This will change the look, feel, opportunities and progression of our city.
009	27/05/2025	David	Payne	Pass it	Go for it	Build it	Health,well being,community envolvment. Economic boost. Reduce young crime. Launch this state into the future of our childeren for coming generations and the now. Donot ever let a minority guide our childerens pathways. With huge health funding being provided our kids need there mental health. Build it or destroy the kids. Its not about you or me its about the future. Of this staye.
010	27/05/2025	Damian	Mansfield				The stadium is a key infrastructure project for Tasmania and its people. The current afl facilities are not up to standard from a sports integrity point of view and entertainment venue. Bellerive Oval is limited on any improvements - current entertainment restrictions are in place. The new stadium is in the heart of the city, close to walking distance from the cbd and will transfer a current industrial wasteland. The venue will hold other events and conferences on a regular basis - not held.
011	27/05/2025	Shane	Reardon			Comprehensive report considering all feedback, now lets Build it.	
012	27/05/2025	Paul	Dare				Build it, a great way to advance Tasmania, and the only way to get a team

017	27/05/2025	Mike	Ellery	Please pass this.	There will be no problems with transport or parking. There never has been with Regatta, Dark Mofo, Salamanca Market, Christmas pageant and more recently the Royal Hobart Show. Little has been made of the 1500 seat conferences and conventiin centre, this in itself will be a game changer.	This is the best thing that will ever happen to Tasmania. It will be hub, as opposed to the sewerage works that has recently occupied the site. It will more than pay for itself. Please put the opportunities for the next generation first.	Give the next generation of kids a reason to stay in Tassie. I left the state at 15 because of lack of opportunities and entertainment. Please pass this Stadium. Thank you.
019	27/05/2025	Graham	Hay	I fully support the bill put to the Parliament. We elect politicians to make decisions.	The permit and conditions cover all aspects of the build and purpose adequately.	The report outlines some concerns as such reports should. It is how we deal with the concerns and roadblocks that is the remit of good project management. As an experienced project manager I fully understand that there will be issues arise that must be managed and resolved to the satisfaction of the community. I believe that these issues can be resolved.	We have been, as a State, procrastinating on use for this space for many years. I attended a function on site when the current PM was the Federal Infrastructure Minister. He announced a \$50 Mill grant for the rehabilitation and repurposing of the Site. Now is the time to take the bold step forward and realise the vision that has been put before us for the benefit of all.
020	27/05/2025	Marian	Barnes				I just want to say that I am for the Macquarie Point Stadium and the AFL Team .
021	27/05/2025	Richard	Atkins	I am in favour.	I am in favour.	Noted.	
022	27/05/2025	Anna	Grant	Macquarie Point Stadium Masterplan			The Macquarie Point masterplan and development including roofed stadium is the most significant development for the Tasmanian community now but especially for the future. To not proceed with this development will stymie development but also the moral of the community and our kids. a sporting complex of this nature offers opportunities, economic growth and return in sport and entertainment, management and administration and allied health. Please do this for the future generations
023	27/05/2025	William	Dodd	I do not support the Enabling Legislation Bill which licenses the Government to bypass the proper planning approvals process and limit community consultation on the project. Considering the enormous cost of the Stadium and the interest repayments on the asset well into the future, such an enormous investment deserves proper planning assessment and community consultation. This fast-track legislation is an enormous risk with a very uncertain return on investment.	Submission from the Tasmanian Planning Commission, the Tasmanian EPA and the report from Professor Nicholas Gruen all indicate that the proposed project carries significant risks. In particular, the site selection report has been identified as especially limited in its analysis and other locations, including at The Domain, were not given proper consideration. The limitations of the current roofed design also significantly reduces the functions of the stadium and its financial viability.		
024	27/05/2025	Bradley	Hardy	Change whatever needs to be changed Tasmania needs this leg up	AFL has given us an opportunity we should not turn down		Iâ€™m a 47 year old Tasmanian from the far north west (Stanley) I played country and ntl for 30 years and love football I want Tasmania to move forward and build to be like the rest of Australiaâ€™, we are well behind!! Hobart water front stadium is such a great location- near the swimming,running,tennis and the city Hobart is our capital and thatâ€™s where I want our AFL team Please go ahead with whatever it takes for us to have an AFL team !
027	27/05/2025	Emily	Dorloff	This stadium will only provide 2000 extra seats. Tasmania only has 8 matches a year. The price of admission for an adult is \$29. So even if you suppose that the stadium is full every game and every person filling those 2000 seats is an adult not paying concession it will take almost 2000 years to recoup the \$945000000 to pay for it. This stadium will be older than the Colosseum by then. It's laughable. I think Tasmania should just sue the AFL for discrimination. It would probably be cheaper.			
028	27/05/2025	Gavin	Cooney	Build it	Build it	Build it	Just build it
029	27/05/2025	William	MacDonald				I do not support the government providing funding for or the development of a stadium at Macquarie Point.

030	27/05/2025	Daniel	Leonard	Macquarie Point Multipurpose Stadium â€™ Enabling Legislation			Either the planning process is for for purpose and we don't need this legislation, or the planning process would be modified. Government should be subject to the same restrictions as citizens and shouldn't be allowed to excuse themselves from processes that citizens are forced to adhere to.
031	27/05/2025	Chris	Thomas				I have never, in my 43 years, been as excited as I am now for my home - Tasmania. Finally something to bring excitement, joy and happiness to thousands of Tasmanians yearning for our own football team and stadium, as well as a work class live entertainment venue right on our own doorstep. As a long time hospitality worker, businesses are screaming for this type of rejuvenation close to their business doorstep. I'm fed up and excruciatingly tired of the body minority and their negative views

039	27/05/2025	Peter	Anderton	the afl or govenment should not be able to raise different bills in parlament for their own use that others dont have access to		report is changing all the time costs are allways changing design is not finnished now cricket concerns is raising its head this late in the peice	the government has to listen to the general public who vote (not the afl) we cant afford it dont want it sport is not as important as housing, health ect and afl play at lots of grounds around australia that are not roofed stadiums not as good as bellerive or york park cannot believe how blind and stuborne the liberal govenment is becoming and blind to tasmanian public
040	27/05/2025	Rodney	Williams	Tasmania could save by bringing back the old work for the dole program - save money, and introduce people to new skill, qualifications and potentially full-time work elsewhere.	Good	Good	Get it built! Also promote music for the venue, so many of us Tasmanians travel interstate to see our favourite bands and artists! We deserve this luxury in our city!
041	27/05/2025	Scott	Clark				YES AFL TEAM, YES STADIUM!!! Lets get it built!
042	27/05/2025	Nigel	Whitehead	I oppose the bill in full. if you can't get the proposal through using normal approval procedures or even Projects of State Significance, it shouldn't pass. Why have assessment procedures if you just attempt to bypass them when they don't give the results you want. No stadium!			
044	27/05/2025	Martyn	Brooke	I have fully read and understand the proposed Bill and fully support the intent of said Bill and building of the Macquarie Point facility and all that it entails.	I believe that the Permit and conditions comply with the intended outcome for the area named.	Although there are some anomalies eg continued cost increases, within the report, I firmly believe that unless the project gets underway in the near future, the cost will rise exponentially. As a person who has been employed in the construction industry for over 40 years, I fully understand how the end cost of a build generally increases. This has certainly become more evident, post COVID.	I have an adult Grandson who is thoroughly engaged in his football. This has been ongoing since junior football as a young boy. He has been fortunate enough to be selected for the Academy of Leadership and Sport and has chosen to align himself to the AFL/Tasmanian Devils programme. Although he currently plays football in the SFL, he has his heart set on future in football. What an opportunity he has, to influence the future of the game in this State. Surely this is a future State health benefit
045	27/05/2025	Ross	Turner				I am supportive of the proposed bill and permit but would like the height of the stadium roof to be lowered ~5 metres to minimise visual impact.

046	27/05/2025	Bianca	Templar				Completely unnecessary to build a new stadium and it's extremely concerning the lengths gone to green light this without proper consultation. They havent even completed an Aboriginal heritage review. Havent engaged experts to determine if the perceived tourism 'created' will be enough to pay the large debt instead of using tax payer money that should be invested into homes, which will also create jobs and address the housing crisis or address the escalating health crisis due to lack of funding.
047	27/05/2025	Jay	Carey				I am now no longer living in Tas. But i an all for stadium. Its about having young kids aspiring to be in the AFL. As as PE teacher i know that kids want to have their chance at succeeding. AFL is perfectly clear that it is required. Economics are factual. Whilst the cost is high the benefits far outweigh the costs in my opinion. I wish it had happened sooner. Tassie isnt seen as a place for growth and investment. Thanks

050	28/05/2025	Stephanie	Tickle				I strongly oppose this enabling legislation. I strongly oppose the building of a new stadium at any location in the state.

053	28/05/2025	Sussan	Riley	Looks amazing	With the impact to other businesses, noise after hours to be kept down		This is the best and perfect spot for a city to have a first class stadium built. The design looks amazing, the atmosphere will be amazing. Congratulations to all involved and as a Tasmanian, I am grateful to the AFL . Our stadium will bring so many opportunities
054	28/05/2025	Karl	Webb	Macquarie Point Stadium			Tasmania residents do not need a new stadium that the Tas Government can NOT afford! More needs to be done to improve our ailing Health system.
056	28/05/2025	Karen	Lane	I understood the seriousness of taking such steps to push through projects should absolutely never be taken lightly yet there has never been such an opportunity for our State to progress as this project. Please consider this once in a lifetime opportunity to develop for our economy, tourism, infrastructure, sports, concerts/events and development of future opportunities athletes			Yes it's a massive debt, but as a banker I understand some debts are good debts. Please consider approval to progress the beginning of our wonderful State's sports/events future opportunities. Thankyou.
060	28/05/2025	Paul	Smythe				If the construction should go ahead it should follow proper due course, not scrap everything to get it built
061	28/05/2025						[Redacted]
062	28/05/2025	Anne	Francis	I do not support this Bill, nor its purpose			This bill aims to send the State of Tasmania into unsustainable debt. Other faulty projects like the two new unfinished ferries and the new Nurinya ferry, unable to be refueled in Hobart are solid proof that this government is unable to plan projects that will be fiscally responsible or sustainable.
065	28/05/2025	Tim	O'Neill	No comment.	No comment.	No comment.	As an expatriate Tasmanian who has returned as a visitor many times, owns property in Tasmania and has encouraged hundreds of friends and acquaintances to visit the state, I'm horrified at the way the state government has kowtowed to the bullying by the AFL board and is pushing through the construction of this massive eyesore in the middle of one of Hobart's most scenic and historic precincts. This will ruin Hobart. Build it somewhere else.

066	28/05/2025	Sue	Moir	The stadium plan is inappropriate for the space and simply not affordable. Given the pressures in Tasmania to fund housing, health and education the funds for the stadium should be redirected to these priorities. I fully support a Tasmania. Team but I believe the government has its priorities wrong.			
067	28/05/2025	Michael	Kaczmarek	The introduction of this bill seems to be a tactic of a government who have made a decision that has not been in the best interests of the community. When backlash to their decision was voiced they are now attempting to circumvent the state's structured planning processes which are in place to protect the people of the state from poor decisions.			If there is an issue with the planning process why hasn't the method that is used to determine the validity and value of a project been independently assessed instead of just "having a tantrum" and going around the process.
068	28/05/2025	Paul	Statham	No to the Bill,			The Stadium is a Fixation of the Premiers , he is trying to get it done by any means possible for his own posterity , Tasmania does not have the money to spend on this White Elephant, people dont want it , this on top of the debacle with the ferries should show a no confidence in our premier
069	28/05/2025	Greg	Butters	Fully supported	Fully support the Governments proposal	Interesting	The longer this is drawn out the more it's going to cost! Just build and I suggest you start as soon as possible...Tasmanians are tired of the politicking and divisive arguments, particularly from the Greens and several independents.
070	28/05/2025	Jack	Hansen	Section 4 â€”relocation of goods shedâ€”			The stadium will be for our current and future generations to enjoy. I am 78 and was brought up around the waterfront of Hobart. The Goods store is and was just another piece of infrastructure that our future generations will never have any interest in. The cost dismantle, relocate, erect to new regulations should be allocated to the new stadium development.
074	28/05/2025	Angela	Tyson				Democracy has gone by the wayside with the Rockliff government. Enabling legislation for this stadium is a gross misuse of power and is disrespectful to the Tasmanian people they are meant to represent. Government should not be allowed to change legislation willy nilly to suit their needs and circumvent the proper planning processes.
081	28/05/2025	Chris	Lunson	I agree with the purpose of the Bill.	I agree with the Permit conditions.	I fully support the Report commentary and observations.	I fully support the Macquarie Point Multipurpose Stadium development and strongly believe that the benefits of the stadium will go beyond the use for Australian Rules Football. The stadium will provide multiple layers of benefits, including improved access from a diversity point of view, improved use of the land, provides a starting point for the redevelopment / reinvigoration of the waterfront and Hobart CBD area.
082	28/05/2025	Paul	Fitzpatrick				After having a read through the Mac Point draft documents, and taking everything into account, I find there to be so many positive aspects to the multipurpose stadium proposal. I fully support the stadium build and the associated benefits that it will bring to Tasmania, for generations to come. This will be the best thing that has happened in our state for decades. Please proceed.

085	28/05/2025	Olivia	Googh	This bill should not be passed. 087	28/05/2025	Oliver	Terry	Iâ€™m an executive in the construction industry and president of a football club in Hobart. If this stadium doesnt go ahead I will seriously consider moving to a more progressive state that invests and wants to grow.			
088	28/05/2025	Philip	Austin	Totally undemocratic process	Will they constantly be changed by the minister		Such a draconian process to facilitate a stadium at any cost is very damaging, lets have a team certainly but not like this please
093	28/05/2025	Bill	Manning	I reject the idea that the Liberal State Govt. Has the right to â€œpervert the course of justice â€œby removing the right of objection and a hearing under the Planning Commision to every Tasmanian Resident!	The permit and conditions are â€œsine dieâ€œIn my submission [redacted] to split the Tasmanian Community and put future Tasmanians in a debt that could end up causing Tasmania to be a â€œfailed Stateâ€œFinancially and Democratically	It is clear that all reports by Consultants reject the proposal!	I respectfully request the Parliament of Tasmania to Reject this biased proposal and to renegotiate the agreement with the AFL with a bias to locating the new Tasmanian Team in Launceston for the benefit of All Tasmanians!

096	28/05/2025	Peter	Aylett				Just build it
097	28/05/2025	Luke	Holden				
098	28/05/2025	Terese	Henning	The Bill should be rejected. The stadium should not be built. It is a vast waste of money that constitutes misplaced priorities when we have hospital, education and housing needs that far outweigh it in importance.	No permit should be granted for the reasons above.	The Reports damning the stadium should be heeded.	If built this stadium will stand as a vast folly, despoiling Hobartâ€™s wonderful Macquarie Point and demonstrating a shocking lack of care for Tasmanianâ€™s wellbeing and needs.
099	29/05/2025	Evan	Peters	No bill. It is an egregious extension of parliamentary power.	No comment.	No comment.	The stadium is a very expensive bauble for political purposes. The land proposed is the only land upon which an integrated transport hub (road, rail line and ferry) may be built. For visitors to this state, such a waste of this asset will be scorned forever! We canâ€™t afford it and this land may be used in so many other better ways!
100	29/05/2025	Peter	McKenzie	Agree	Agree	Agree	I support the intent to build the stadium.
102	29/05/2025	Lynn	Parlett	Macquarie Point Planning Permit Bill 2025	As per https://www.tas.gov.au/__data/assets/pdf_file/0014/440060/Final-Draft-Macquarie-Point-Planning-Permit-Draft-Project-Permit.pdf	I am vehemently opposed to Macquarie Point Planning Permit Bill 2025. This legislation destroys due process of appointed planning bodies to properly assess a major project which includes land acquisition, major construction and transport infrastructure. It allows the government to substitute their own opinions as fact and ignore numerous reports by experts. If the stadium was well planned, well placed and financially viable this legislation would not be required. and the general public to	The government of Tasmania is trying to pass legislation that removes any and all checks and balances on an expenditure which will by their own admission, increase state debt by almost \$1 billion in the construction phase alone. Surely, this project and massive expenditure should be subject to the highest level of scrutiny in all areas, not given a free pass. This bill borders on dictatorship.
103	29/05/2025	Frances	Stewart	No Macquarie Point Planning Bill 2025. It undermines Democratic principles.			
104	29/05/2025	Anne-Marie	Loader	I don't agree with giving a state government minister this level of power without the ability for the community to appeal. It bypasses all levels of reasonable and democratic rights of the Tasmanian community and the usually planning approvals processes.			This rushed legislation and the level of power that will be given to the Minister is truly concerning and undemocratic. Regardless of my opinion on the merits of the stadium, I object to this bill because of the power it gives the Minister and the total lack of appeals rights by any member of the Tasmanian community.

112	29/05/2025	Fran	Thompson	This appears to cover all aspects of the planning and process for the project.	ditto the above as much as an observer can make out.	And the report responds to the two above.	My concern is that the public actually fully understand the work that has been done and the planning and that there is (a) no further delay which would add costs and (b) that the reasons for some of the conditions is fully understood by the public as there has been too much negative media because there has not been sufficient explanation of how it will work. There is not even enough space on this page for me to finish. So, good to have a public consultation but, its combersome to maneuver
113	29/05/2025	Keith	Thompson	The Bill allows Parliament to make decisions that will allow this exciting and essential development to proceed. It is democratic and will provide a speedy resolution. It will short circuit the divisive, confused and negative commentary that is delaying what is an important development	These are very, very comprehensive.	The report accurately details reasons, processes, benefits and acknowledges that there are matters that will still require a final solution. It negates the argument that there is not enough information.	That such an opportunity to create a visionary community asset is still not realised is extraordinary. The potential benefits to the state are huge. We cannot let it slip away. This process is looks like the last opportunity for Tasmanian ÆFL teams and a revitalised Mac Point. Not to mention the hundreds of thousands of dollars Commonwealth and AFL money, and massive business oportunities.

117	29/05/2025	Sarah	Harris	Highly supportive of this project. The economic benefits to the state are significant and will not be offered again if we miss this opportunity. I'm not an AFL fan and I completely understand the benefits that a multi purpose stadium will have on our state by opening it up to conferences, conventions, concerts, expos and other beneficial exhibitions. I have seen the success of other similar projects on other states and we would be incredibly narrow minded and lack vision to not pursue this	Highly supportive of this project. The economic benefits to the state are significant. I have no concerns with the permit and conditions. Just build it.	I have no concerns with what is outlined on the report.	Just build it. We would be foolish to miss out on a project that would inject desperately needed funds I to our economy.
119	29/05/2025	Kevin	Young	I urge all representatives to pass this bill	I am happy to see this project proceed	Comprehensive coverage of an important piece of infrastructure for our state	Please progress this project as an important step forward for the growth & development of Tasmania and a unique opportunity to provide a better future for future generations
121	29/05/2025	George	chamberlain	Build it	build it	build it	I want it built sick to Tassie being a backwards state .we need a reason for people to stay and not move aways .
123	29/05/2025	Kathryn	Dwyer	I wish for this to be passed to enable the stadium to be built (with roof) as soon as possible, to facilitate job growth both during the building and following completion that will provide an economic benefit to hopefully Tasmania as a whole.	I support the permits and conditions	Iâ€™m happy with the report	
124	30/05/2025	kenneth	johnson				I do not support a new stadium in Hobart as I do not think the state can afford it,There are many more important issues facing the state and the afl is holding the state to ransom even though i personally think Tasmania should have an afl team being a state that has always had football in its heart and over the years has contributed many great players to afl and vfl teams. I also think it will end up costing more than a billion dollars,for only a small proportion of the states to go to
125	30/05/2025	Richard	Grubb	Macquarie Point Planning Permit Bill 2025			This development must be built. Not just for all of the fabulous benefits it will bring to Hobart and the State, but also to prove the noisy minority can no longer stop so many developments which add value to our state and give all people here a future. For me personally, if this does not get built, it will be the last straw and I will head back to the mainland.
126	30/05/2025	Felecia	Phillips	The bill should not be passed as the financial implication is too much for Tasmania to pay for.	The shadow it casts will be seen on the cenataph .		For the amount of use age of this stadium will never make money, cricket will not use it and for 7 AFL games it is not vilable.
127	30/05/2025	Edwin	Darke	Supported	Supported	Supported	Yes stadium
128	31/05/2025	David	Brough				This is a complete and utter waste of time and money when the state can least afford it!
129	31/05/2025	Philip	Carr	No stadium due to excessive costs	Should not be a approved and stop the process immediately	No report	Disappointed already with the waste of taxpayers money and the future abuse of taxpayers money
130	31/05/2025	Elizabeth	Shannon	I disagree with the attempt to bypass existing processes by introducing this Bill. I object to enabling legislating to approve the Macquarie Point Stadium.	I disagree with the proposal to issue a permit for this work. There are so many urgent demands on the state budget - a new football stadium does not even feature on my list.	This is not an honest assessment of the pros and cons of this proposal.	I am outraged that both Labor and Liberal representatives are condemning Tasmania to generations of debt to pay for 'bread and circuses' that distract from other mismanaged and/or misguided projects.
132	31/05/2025	Phillip	Clayton	We cannot aford this	Wrong place	Should be using the stadium up north	We should be supporting our hospitals housing and living standards
134	31/05/2025	Peter	Hopkins	The bill seems fair and reasonable.	The permit and conditions are fair and reasonable.	The report is clearly understandable.	You have my support, this stadium will enhance the the states prosperity for generations to come.
135	31/05/2025	Kerri	Harper	Money could/would be better spent elsewhere			We do not need another stadium, we already have 2!! Spend the money updating them instead, we do not need 3. Total wadte of money that poor tax payers have to pay wouldn't be happening if politicians had to pay for it.

136	31/05/2025	Tim	dâ€™Emden	Pass the Bill to approve the Stadium at Macquarie Point			I write as an individual who is interested in seeing the Tasmanian Devils finally represent the people of Tasmania and the benefits to the whole State that it will bring. I have family in both Launceston and North West Tasmania all are in favour of the Stadium at Macquarie Point. I have been lucky to have played a number of sports at Tasmanian representative level. I have never played Australian Football but through old school mates who played for Richmond am a keen follower of Aussie Rules
139	31/05/2025	Lindy	Stevens	Tasmania does NOT need this stadium. We need more money towards Health, Education,Housing. Please consider upgrading the stadium at York Park instead. It will be an absolute disgusting waste of money if this stadium goes ahead. Tasmanians are doing it hard and the government does not seem to care.			
140	31/05/2025	David	Heaney	You cannot do this.	Listen to the people.Dead against this proposal.		If this is such a hreat idea fir tasmania, have a referendum.
141	31/05/2025	Janita	Milburn	Pass it. Build it NOW	BUILD IT NOW	BUILD IT NOW	JUST GET IT BUILT
144	1/06/2025	Paul	Dimmick	The stadium proposal has already been shown by standard planning process to be inappropriate. Special legislation should not be used to circumvent normal planning processes. This is an abuse of power.		The reports all show this is the wrong site. Pay attention to the reports and go somewhere else.	The site is too small. Tasmania would be better served by a large site more central to all Tasmanians, eg on the outskirts of Launceston.
145	1/06/2025	Danny	Masters				A project of State significance. Proposed for a disused area near Hobart CBD. An opportunity for a generational development with a guaranteed end user in AFL with numerous other end users which will revitalise that area of Hobart and benefit the rest of the State. 200,000 Foundation members for the Devils. Time to look past the "No" block who currently don't have anything else to oppose. Get it done. Watch the cost.
147	1/06/2025	brian	forster	Enabling bill	N/a		Whilst I do not agree with the stadium in the proposed location (I do support a stadium at Bellerive or York Park) I am concerned about the access to the facility and the proposed busway? I believe due consideration has not been given to the alternative light rail option whereas not only would it be more efficient and a better option for the following reasons. It would be less polluting if an electric system is used . A rail system would carry more passengers in multiple units
149	1/06/2025	Luke	Meers				I believe the stadium should be built, to the benefit to all Tasmanians to enable the new AFL team and to further invigorate Hobart and Tasmania as a tourist destination for festivals and events, alongside natural assets. I strongly believe ferry and rail infrastructure should be built to position these as the main transport options for match days. This infrastructure will support better transport options outside of event days, to support commuters and events.

151	1/06/2025	MARK	SLATER	I write in support of the Tasmanian Governmentâ€™s Macquarie Point Planning Permit Bill 2025, released for public consultation on 27 May, 2025. The Bill, if passed into law by theTasmanian Parliament, will ensure that the construction of the stadium is expedited. The time for consultation and public debate is over. The stadium has been the subject of intense public and political scrutiny for more than two years. There are no new arguments, for or against, to be advanced. It is time to decide.			If it proceeds, the stadium will be one of the most transformative infrastructure projects in the stateâ€™s history, perhaps only surpassed in modern times by the new Bridgewater Bridge. The stadium will ensure Tasmaniaâ€™s participation in the national AFL competition, revitalise the neglected Macquarie Point waterfront precinct and stimulate the Tasmanian economy through tourism and investment. It will also provide Tasmanians with an immense sense of pride in their capital city and their state.
153	1/06/2025	Damien	Mccormack		The legislation to bypass planning is 100% corrupt and 100% not in Tasmanias interests.	The POSS report has not been dealt with as is suggested by this 140 pages of meaningless waffle designed to put most people off reading it	The thought of destroying the historic tourism industry which already brings billions into the state each year in order to have a stadium which won't fit on the site without destroying even more historic structures, destroying the views from hotels that are internationally known for the view just so a minority of football fans can have a stadium so they can have a team is inconceivable for lack of a better word. If the estimate is \$1 billion now, will be 10 with their track record
161	2/06/2025	Cheryl	Gurnhill				Tasmania cannot afford the stadium, especially when making cutbacks in essential services. Football is not essential!!
162	2/06/2025	Rob	Norman				If the stadium DOESN'T go ahead everyone who wants a team in the AFL will have been let down by the government and those who are against this and Tasmania WILL never have a team in the AFL
164	2/06/2025	Michael	McMillan				I believe there are great health and wellbeing benefits to our young people as we introduce a team and stadium to Tasmania, this is due to the already seen uplift in sporting activities particularly around football. I also think that Hobart is well overdue for an all weather events venue such as the proposed Macquarie point stadium
169	2/06/2025	Michelle	Aulich			I am in full support of the stadium, both in concept and its current location. I am hopeful of the opportunities this provides for our families, both in current time employment opportunities and also enabling my children to dream that they can play for Tasmania, or work in their chosen field in Tasmania - maybe they are a sports physiotherapist, an events manager, groundskeeper - the possibilities are endless. Too many of our children need to move interstate to pursue opportunities.	This provides so many opportunities for them to remain in Tasmania (if they choose) or return to Tasmania. The economic benefit will be significant. We are a family of four and will be travelling to Melbourne in a few weeks to watch our current AFL teams. We are staying 3 nights in a hotel, will be dining out and shopping, visiting other tourist attractions and spending thousands of dollars while there. Let Tasmania have this benefit.
171	2/06/2025	Andrew	Moody				Tasmanian tax payers should not have to build a stadium, so they can achive an AFL team. The stadium is a commercial busness, not a sporting facility. Afl, and Vfl have been played in Tasmania on 3 different grounds for the last 4 decades. Goals were kicked, games were won and supporters, supported. The average crowd to watch afl in the south is only 6500 people per match. I believe the sport of afl is dying with the baby boomer. Young people these days have other interests.

176	2/06/2025	Ron	Brooker	Stadium enabling legislation			It gives us too much debt. Better value could be achieved by getting more of the ordinary citizens moving for alot less money
178	2/06/2025	Stephen	Calvert-Smith		I expect there will be special areas for motorcycle parking and bicycle parking. Could I ask that you make sure these areas are undercover â€œ protected from rain etc. With \$786 million to spend, this should not be too much to ask.		
181	2/06/2025	Paul	Fountain	Happy for the bill in any form that ensures the stadium is built.	The stadium clearly fits within the Mac point site. The ridiculous response from the Our Place architects has been completely debunked. Having been to London recently and seen modern architecture such as the Shard and the Gherkin side by side with centuries old buildings I think the stadium will fit well into the amphitheater area provided.	Concerns for traffic, transport and parking are all solvable. The stadium will sell out every game and provide enormous happiness for the state. Once built the range of purposes that the stadium can provide will expand and it will be used for a myriad of events that we havenâ€™t thought of yet	Our AFL team needs the stadium to be competitive with the other 18 teams and attract the best players, coaches and administrators. The AFL and federal contributions mean we get a near billion dollar stadium for about \$650 million that makes \$178 million per year after construction. 20 years gives 3.5 billion in earnings and 20 years worth of footy happiness. Imagine thousands meeting in Salamanca and marching to stadium like they do on the mainland
182	2/06/2025	Robert	Sutherland	Its improper to pass legislation that has the sole purpose to build a project that the majority of people don't want. Normal approval process should apply.			This provision of this facility in the CBD will destroy the amenity and public open space of our city. It's also a gross waste of public funds at a time when the state budget is in deficit. The last state budget foreshadowed a reduction in public spending. Stop spending on such an unwanted project.
183	3/06/2025	Peter	Feldman	It is not clear at all that the majority of Tasmanians support the construction of the proposed Macquarie Point Multipurpose Stadium. In fact, if public comment is anything to go by it would appear that the majority of Tasmanians oppose it. The introduction of enabling legislation to bypass normal checks and balances smells like something is rotten.			
184	3/06/2025	Brent	Goldsmith	This submission strongly supports the Bill for the Macquarie Point multipurpose stadium, viewing it as a crucial step for Tasmania's economic, social, and cultural growth, particularly in the greater Hobart area. The government's introduction of this Bill, seeking parliamentary approval for several key actions, is highly commended.	This submission is presented in unwavering support of the Permit and its associated conditions for the development of the Macquarie Point Multipurpose Stadium. As residents and stakeholders of Hobart and the wider Tasmanian community, I recognize the profound and multifaceted benefits this project will bring, and commend the thoughtful approach reflected in the proposed permit framework.	This submission expresses profound and unequivocal support for the recently released Report into the Macquarie Point Multipurpose Stadium. The Report's findings, analysis, and recommendations provide a robust and transparent foundation for the stadium's development. I commend the diligent work undertaken in its compilation, which I believe thoroughly addresses key considerations and provides the necessary justification for proceeding with this transformative infrastructure.	This is more than just an infrastructure project; it's an investment in Tasmania's future. It will generate substantial construction jobs, followed by ongoing employment opportunities in hospitality, events management, and related industries. It will enhance Tasmania's reputation nationally and internationally, attracting high-profile events that would otherwise bypass our state. Furthermore, it will provide a much-needed boost to local businesses & the economy.
185	3/06/2025	margie	law	Given the level of state debt, concerns from the community to the cost of the stadium, the poor state of health and housing, the failure to deliver the Spirits of Tasmania as promised (how did the Government fail to see that there no works were being done to the Devonport wharf to get it ready for the ferries - incredible stuff up), I don't see how I can have confidence that sending the stadium to a parliamentary process with just the relevant ministers in charge of the project is a good idea.	Concerns about the stadium design and location were raised by the Planning Commission. From what I hear from the Government, this process is designed to ignore those concerns. By the time all the problems from the stadium are realised if it is ever built, all the politicians that support it will probably be on their way out of politics, leaving no accountability. That is why we have a planning commission. Use it.	The Report is biased Government-speak. Pure propaganda. If I printed it I would be using it in the toilet. It is full of rubbish words like "bold" "iconic" "landmark" 'energising" but provides no evidence. The Government should be ashamed of itself for this rubbish. Give me proof that we can afford the stadium, that the design is actually the best, that the site is right. If we can afford it, if the site is right, if the design is right, then I support it. But you have not given me any reason t	continued from above.... to believe your propaganda. Fund health and housing first. Show me you have housing and health as a priority. Too much talk about a place to kick a ball around. (I decided to do the online submission but it is not friendly that it only allows a small number of characters. Very disappointed in the Government over this. Not good enough.)

186	3/06/2025	June	Harper	The Macquarie Point Planning Permit Bill has been rushed into existence by scaremongering about the possibility of no AFL Team for Tasmania without a new roofed Stadium. This has never been a requirement for a team for any other state. This Bill is totally unacceptable and unnecessary as the Stadium Plan should be presented to the Tasmanian Planning Commission for assessment as all other building plans should be.	If the MPPP Bill was enacted it gives extensive power to a Minister to approve additional permits and oversee all conditions are met. The Minister judges if the alterations to the Permit are inconsequential enough to not seek other outside input and this is a very subjective decision making process.The same process applies to the 35 Conditions of the Permit and will result in the same outcome. To have a Government Minister with this amount of power does not pass" the pub test"	The Report covers the history of the site ,design and community concerns. While putting a strong Government case for the development of the site and the building of the Stadium the report only mentioned the strong objections by community HCC ,EPA etc and no solution to these objections.	The cost blow out even before the start of the Project is untenable. Future generations of Tasmanians will be paying for a Stadium that we cannot be sure will pay its way and will be classed as obsolete in too short a time frame. Economist Saul Eslake and the Gruen Report both state the Stadium will not be economically viable. The Stadium will not be a tourist attraction and will detract from the significance of the Cenotaph and historical beauty of Sullivans Cove that are tourist draw cards.
187	3/06/2025	Rod	Force				I do not support the proposed stadium due to its height and bulk, as well as its looming presence over historic Sullivans Cove. In addition, the cost/ benefit modeling has never been released, which makes me suspicious. I doubt that it stands up financially. I doubt that the location is ideal, and zi doubt that the logistics of parking and access will work. If 10,000 supporters come from the North and North West of the state, where will they park even if they walk a half hour to the venue?
188	3/06/2025	Stuart	Hughson	I wholheartedly agree and support the Bill as written.	I wholheartedly agree and support the Permit and Conditions as written.	I wholheartedly agree and support the Report as written.	I am in favour of this legislation
189	3/06/2025	Leo	Miller	All looks great	All looks great	All looks great	As a locally owned small, family business we work very hard, often 7 days a week and currently struggle financially. We desperately need a boost. This stadium and associated events will drive huge economic activity and bring a massive amount of joy to so many in our society. Upon confirmation of the stadium proceeding we will be signing off on a multi million dollar redevelopment of our sites and thus investing heavily in local jobs and progress.

201	3/06/2025	Rob	Blakers	The enabling legislation for this proposal is over-reaching and extinguishes public input. It is rushed and inappropriate, and smacks of desperation. That the bill has been introduced into Parliament whilst even this 'feedback' period is incomplete takes the abrogation of due process to new heights. The process as it is now unfolding is a sham that is insulting to the Tasmanian public.	There should be no permit and conditions required, because the entirety of the project should not proceed. It has been a bad deal from the outset, has not improved until this point in time, and would inevitably become a financial black hole if it were to proceed further.		This was a poorly conceived project, the process for evaluation is now farcical and it should be halted here, before additional time and money is wasted.
202	3/06/2025	Ingerlise	Armand	No new stadium	No new stadium	No new stadium	We have two stadiums already that could be upgraded to a much lesser expense. We need affordable houses, more health care, more sustainable power, and ban old growth forest logging.

214	3/06/2025	Helen	Hussey	We can not afford the new stadium. The cost of the ferries has weakened our economy. Our hospitals and health care are underfunded. It was cold this afternoon in Elizabeth Street a man was huddled in a doorway. Homeless people do it very tough in Tasmanian Winter. Yesterday a homeless man was found dead in an industrial dumpster. What sort of people are we? I am not against a Tasmanian AFL Team. However when they show replays, many of the stadiums have less than Blundstone Arena.	This stadium should not go ahead. We can Not afford it. When public buildings and assets need to be sold to try and fund it it is outrageous.	The Report shows that the cost is much more than previously thought.	We need democracy with the greatest good for all Tasmanians, not lining the pockets of AFL.
215	3/06/2025	Sheelagh	Wegman	Sets a dangerous precedent for future planning and development in Tasmania by removing community consultation. It will give developers an 'anything goes if you have the money' permit and the government will wave your application through. Complete lack of integrity and totally lacking in any social licence. Parliament is NOT A PLANNING AUTHORITY!	Where are the costings and the plans? What right does Rockliff have to destroy Hobart's historical and cultural precinct? What does he gain from compromising the TSO Concert Hall, the Cenotaph and Soldiers Walk, the classy hotels - in fact the entire Sullivans Cove and the entry to Hobart? What right does he have to lumber our children and grandchildren with enormous debt - all for a few games of AFL football. WHAT IS THE REAL DEAL THAT THE GOVERNMENT HAS SIGNED?? FOLLOW THE MONEY ...	If Rockliff commissioned reports from consultants and economic advisers and planners he must listen to them - no dismiss them because he doesn't like what they have said.	Launceston is keen and more than able to have the AFL teams play there. Launceston is ideal - central to North West Coast and to Hobart fans. Shorter flights from mainland Australia. The UTAS stadium has renovations and Rockliff was recently on a video spruiking the great facilities
223	3/06/2025	Angela	Bain	You have: • No integrity of process • No mandate • No social licence • No final plans • No final or reliable costings So, here's my say: • No to Macquarie Point Planning Permit Bill • No to parliament acting as a planning authority • No blank cheque • No to a stadium at Macquarie Point		Re-negotiate the deal. You can still have the team if you build the stadium elsewhere.	Please build the stadium somewhere else. You will be responsible for destroying the street scape and history of Hobart...Shame.
231	3/06/2025	DAVID	OHalloran	This Bill represents a fundamental breach of proper planning and legislative process. It proposes to vest sweeping authority in the Minister, effectively sidelining independent expert scrutiny and community input. The Tasmanian Planning Commission, having already received over 860 submissions, should remain the central statutory authority on these matters. The Bill's enabling mechanisms appear designed to circumvent accountability and neutralise dissent.	The proposed permitting approach lacks integrity. By giving a single minister overarching control, the framework replaces transparent planning conditions with unchecked executive discretion. This is not a system of regulation; it is a system of exception. The conditions outlined are vague, unenforceable, and subordinate to ministerial fiat.	The supporting documentation accompanying the Bill is deeply inadequate. It claims to respond to the Tasmanian Planning Commission's concerns but fails to do so meaningfully. Assertions are made without evidence, dissent is dismissed without reason, and the tone suggests contempt for the public interest. In multiple areas, it amounts to a blanket "trust us" response where trust has not been earned.	The government's handling of this process is unacceptable. Tabling the Bill before consultation concludes renders the public engagement process a sham. It sends a clear message: the views of the public and independent statutory bodies are an inconvenience to be worked around. That is not consultation—it is theatre. This government should be held accountable for degrading planning integrity in Tasmania. Any genuine consultation must start by withdrawing the Bill until the community's feedback, t
239	3/06/2025	Gareth	Chugg	This is an incredible opportunity for tasmania! This project needs to be supported by any and all who live our state and do not wish to see it held back my the Anti everything brigade			
246	3/06/2025	Donna	Sward	Fast tracking a bill under any circumstances is lacking in integrity and is reminiscent of Trump tactics. i object to the planning authority being undermined and stripped of power in this way.	the costings continue to blow out and the project is barely started! i have no faith in the government to deliver this project at all, let alone on time or to the already ludicrous proposed budget	there is no social licence for proceeding with such a frivolous project during a time of large deficit and while education, homelessness and health are in crisis.	this project is doomed to fail and i believe estimates of return on investment are fanciful at best.

251	3/06/2025	Liz	Moore	I do not support this Bill at all. I am appalled at the bulldozing of this legislation without respect for existing processes. I am disgusted in the Government’s ongoing ‘moving of the goalposts’ with respect to this development. I do not believe the State can afford it or that it is good use of public money. I think the agreement with the AFL should be re-negotiated. I fully support a Tasmanian football team but I do not believe this stadium proposal in this place is in any way appropriate	As above - I do not support the permit and conditions for this proposal at all. I do support a Tasmanian football team. I believe the agreement with the AFL should be re-negotiated and should not dictate the location of a stadium. Other locations should be considered - including the northern suburbs (Elwick area), Brighton and the alternative proposal that the Government has rejected out of hand (MAC 2). This process has been outrageous and the cost to the State is unaffordable.	As above - I do not accept or agree with the findings of this report. I believe the agreement with the AFL should be re-negotiated and should not dictate the terms of the stadium. The MAC 2 proposal should be properly considered. Alternative locations should be considered. This government is acting with wilful arrogance and is proposing to waste extraordinary amounts of public money on this proposal.	I do not have any confidence in the government’s ability to properly manage this project, or, indeed, the State’s budget. The decision-making around this proposal has been grossly irresponsible and inconsistent with due process and procedural fairness. I am gobsmacked by the attempts to override or bypass the usual planning processes for this proposal. I hope and trust that if the government proceeds with this proposal, that they will be punished at the next election (or by the Palt before).
262	3/06/2025	Jamie	Nye	Enabling Legislation for the Macquarie Point Multipurpose Stadium		Why must Tasmania pay out over a billion dollars for a new AFL stadium when we have already have 2 AFL grade stadiums in the state?	
263	3/06/2025	Geoff	Murray	This bill should not be passed, it is damaging to the democratic process and could result in Tasmania suffering catastrophic financial and social damage.	No Permit should be issued	Acknowledge the reports that have criticised and advised against building the stadium	
264	3/06/2025	Veronica & Stan	Mather	Disagree with Senator Abetz being given so much power			With more than half Tasmanians against building this Multi billion stadium at Macquarie point, It was blackmail in the first place A small state cannot afford it., We would like a team but not at that cost. The north is far more AFL minded than the south, maybe the team should be located there (if we have one) Much easier for access from the North west and south a central point. Macquarie point is in Hobart's historic area it is NOT a suitable place for a stadium.
265	3/06/2025	Andrew	Messmer				I am a person who calls greater Hobart home. The town would love an AFL team but it does not need a new stadium. Numerous independent reports have expressed concerns over it's location and viability. Why not base the team in Launceston or upgrade Blundstone arena? Something which is affordable and we can all still be part of and proud of. Disengagement with the usual planning processes and fast-tracking concerns me. Be strong for us and renegotiate with the AFL please.
266	3/06/2025	Peter	Hicks	Brought in prematurely and in haste. Lacks ability for proper consultation. Undemocratic.	A betrayal of trust in Tasmanians who see this project rightly as a major indulgent drain on the public purse	The reports into the stadium have been scathing in their assessment of the poor returns and division that this stadium project has created in the community.	This bill is a travesty and brazenly overrides democratic processes in order to ram through an unwanted and extraordinarily costly stadium. It gives precedent for future projects that do not have the public's best interest at their heart and can be used to subvert our democratic voice.
269	3/06/2025	Glenn	Sanders	I'm appalled by the special legislation, you have no mandate or social licence for this. It rides roughshod over established legislated procedures.		The financial aspects are poorly analysed, and the inclusion of risk of cost overruns and similar is very inadequate. Tasmania’s financial situation as seen in the recent budget is dire, and the stadium cannot do but worsen this situation. There is inadequate assessment of the impact of a visual abnormality on the tourism and hospitality industry, given Hobart's low rise, old buildings vistas.	The arrangement with the AFL is atrocious. They are telling a sovereign government what to do. You should be ashamed.
272	3/06/2025	Bronti	N	I do not support the legislation enabling the construction of a new stadium at Macquarie Point. The proposed bill facilitates a project that is not in the best interests of Tasmanians. At a time when the state is already burdened with significant debt, this is a poor use of public funds. Our resources should be focused on essential services, not a billion-dollar development that lacks widespread community support.	I object to any planning permits being issued for the Macquarie Point stadium. The site could be better utilised for essential infrastructure, green space, or affordable housing. If permits are considered, they must include strict conditions on environmental impact, transparency, and a cap on public funding.	The reporting on the stadium proposal fails to reflect the views of many Tasmanians, especially those in the north of the state who already have access to a quality stadium in Launceston (UTAS Stadium). The justification for this project appears to be more about political ambitions than community need or economic sense.	This entire process has been frustrating for ordinary Tasmanians. We already have a great stadium in Launceston that serves the purpose well. The proposed stadium in Hobart is redundant, wasteful, and a distraction from the real issues facing our state—like health, housing, and cost-of-living pressures. Please prioritise projects that actually benefit the majority of Tasmanians.

273	3/06/2025	Pamille	Berg	see below	see below	see below	I strongly object to the Government's sequence of actions in attempting to obtain approval to proceed with the construction of the Macquarie Point Stadium. The proper application of the specified Project of State Significance (PoSS) process to the project IN FULL, not in part, is essential. The Bill 's introduction cancels the completion of TPC's final Integrated Assessment Report for consideration, which is completely unacceptable.
274	3/06/2025	Chris	Rees	The only reason to build this stadium is the contractual requirement of the AFL. It is unnecessary, does not fit on the site and will burden Tasmanians with debt for generations.	It does nothing for sporting participation. It divides the community when we should be uniting behind the club.	The process has been dishonest from the start and continues to be. How can you table the bill halfway through the public comment period on the bill?	I reject the stadium proposal and the crooked process including this ludicrous power-grab of a bill.
275	3/06/2025	Henni	Petr	https://nonewstadium.au/wp-content/uploads/2025/06/No-Stadium-enabling-legislation-submission.pdf			
277	3/06/2025	Jenny	Fuller	This Bill represents a total disregard for proper transparent, accountable and democratic process with no proper public consultation. There is no political mandate for this Bill.	Parliament and the Minister assigned to oversee this project have no expertise in planning or other relevant qualifications to correctly assess permits and conditions for this project.		No stadium at Macquarie Point.
283	3/06/2025	David	Halse Rogers	Community Response to Macquarie Point Planning Permit Bill 2025 The Government has NO social licence or mandate from the People of Tasmania for this project. There has been absolutely NO integrity shown for the process. There are NO reliable or final costings available to adequately assess the process Parliament is NOT the appropriate planning authority NO the Macquarie Point Planning Permit Bill NO to any stadium at Macquarie Point			
289	4/06/2025	Clea	Eykelkamp	Macquarie Point Planning Permit Bill			This permit defies logic. The project has no definite costs, no final plan, very little community support, and no integrity of process. I do not support the proposed Bill. I object to parliamentary interference in planning matters. I find it appalling that millions of dollars could be spent on a frivolous and unnecessary project when there are so many urgent needs within the community. This stadium should not be built.
293	4/06/2025	Liz	Bruce	This bill, which has been rushed through Parliament without proper public consultation, denies any individual or group the right to submit their concerns regarding the building of this stadium on this site at this time when the State's debts are already in a disturbing way.	Again, this Government have continued to bulldoze their way through proper avenues and have ignored legitimate pathways in order to further thir own interpretations of what is best for Tasmania and the people they have been sworn in to SERVE.	The report shows the choice of Government to ignore findings and advice of experts and those Tasmanians who have thus far openly and loudly expressed their concerns about building on that particular site and about desperate concerns regarding how such large funds could better be used to meet the needs of Tasmanians in areas of shelter, public hospital care, aged care, child protection, policing ...and so many other areas of community need.	As a pensioner, I have little interest in any sport however, as a mother and grandm I ther and former worker with young people, I have a clear understanding of how important football in particular can be to others. BUT , aas a member of the Tasmanian community with a sharp and clear headed interest in the political menagery of this once unique and much cherished beauty, I have been disgusted by the current state government's lack of judgement and common sense in the matters of this stadium.
296	4/06/2025	Lois	Dann	The Bill is disgraceful. He is following in Donald footsteps.....if he doesn't like the Commissions findings, and he definately didn't, then he will bypass the Planning Commission with a Law of his own, to suit and chieve his own needs.		The Planning Commissions' damning report was absolutely appropriate for Macquarrie Point. I was hoping the Premier would take note of the Commissions recommendations and concerns, and put a stay on the stadium, till he could put it to the people in a referendum.	From now on I will refer to him as Jeremy Trumpliffe. Very disapointed in him.

297	4/06/2025	Judith	Clark	Simply NO. I think it is outrageous that the government is trying to bypass processes simply because those processes have been raising serious questions about the stadium at Macquarie Point.	I do NOT support the building of the stadium at Macquarie Point so the permit and conditions are redundant	As per Permit and conditions	I don't know where to start - I strenuously object to the government spending money Tasmania cannot remotely afford on the stadium. To try to build it at Macquarie Point adds insult to injury. To have been locked into this by a sporting body is ludicrous and shows a deep level of incompetence. And now to try to bypass legitimate processes with this legislation is the final outrage.
300	4/06/2025	Matt	Dalziel				I have so many reservations about this project, ranging from cost to congestion and the opportunity cost of the site. The total cost to Tasmanian taxpayers is excessive, particularly considering the state's debt levels. Using land sales to fund the loans required to build the stadium is still a cost to Tasmanians- these land sales could have been used to fund improvements elsewhere or retire existing debt. The AFL is literally robbing us.
302	4/06/2025	Ros	Wilson	Enabling Legislation			This bill is undemocratic, devious and will bankrupt Tasmania due to huge debt building the stadium will create. Tasmanians need housing, a functioning health service, good education and safer roads.
305	4/06/2025	Sarah	Radcliffe	There is no mandate to rush this bill through and therefore no social licence. Due process must be followed including looking at alternatives like upgrading York Park so more Tasmanians from other parts of the state have the ability to support a Tasmanian AFL Team through attending matches.			
306	4/06/2025	Stuart	Galloway-Walker	This legislation is a desperate attempt to railroad through a project that the government knows it can't get through any reasonable planning process, even when it has declared it a Project of State Significance, and for good reason. The cost will be a burden on the state for decades and the visual, environmental and traffic impact on Hobart will be huge. It's dangerous legislation that says "we can do whatever we like".			And this consultation process is a farce given the fact that the legislation has already been tabled.
307	4/06/2025	Geoff	Murray	This bill should not be passed, it is damaging to the democratic process and could result in Tasmania suffering catastrophic financial and social damage.	No Permit should be issued	Acknowledge the reports that have criticised and advised against building the stadium	
308	4/06/2025	Rhonda	Tomlinson	This bill overrides all existing planning processes because the project does not objectively meet the criteria for desirable development. There are not any final plans. The consulation period hasn't closed and the bill is already tabled.	I shall not waste my time making reasoned arguments. The consultation is fake.	I shall not waste my time making reasoned arguments. The consultation is fake.	This is a vanity project and is all about who's right rather what's right. Wishful thinking and overblown egos can destroy our unique city and tourist market differentiation. Why swap crucial assets like the electricity distribution and transmission networks for another sports ground? And hasn't anybody noticed that the games played here now are never full?
317	4/06/2025	Wendy	Auchincloss	Over-rides current legislation for no purpose other than to satisfy the personal opinions and interests of politicians and the AFL. It should not be passed.	Are self serving and insufficient.		The stadium is a power and money grab by a rich and powerful organisation (The AFL) from a poor indebted state (Tasmania). The benefits are not guaranteed but the debt is. The legislation is craven and should be denied.
328	4/06/2025	Sharon	Heritage	I think that this bill wrongly overrides proper process, in the haste to approve a stadium as demanded by the AFL. I also believe that too much power would be given to Eric Abetz, who I believe does NOT have the best interests of the entire Tasmanian population in mind.			It is evident that we CANNOT afford the stadium. This recent budget proves that. Independent assessment shows that it would make a loss. Tasmania is special and wasting money plus a wonderful waterfront site on an inward-looking stadium is not something that is either sensible or appropriate.

330	4/06/2025	Suzanne	Bell	Macquarie Point Planning Permit Bill 2025	The bill is illegal. The parliament has no mandate to pass a bill which denies our rights as Tasmanian citizens in a democracy. There is no mandate to build an expensive stadium on public land with our tax money. The project will decimate our future hope for better health, transport, housing and education in this State. Consider our population size and the VERY SMALL % who may actually benefit from this project. Our community is desperate for this money to be spent on things we really need.	Proper 'research' has not been done. The Liberal party view is flawed . Look into extensive legitimate unbiased research which has been done across the western world by academics examining similar instances where communities are tricked and cajoled by "the big sports bodies" who are the only ones who ever profit from large stadium projects. (VERY easy to find online.) Much more effective use of this \$ would be to spend it on grass roots sports programs in primary and high schools !	You are giving in to the pressure of the big rich boys from the mainland to further cripple Tasmania. I suspect that much of your motive for this project is based on a 'Sense of Power' and (The cringe effect) - inability to stand up for Tasmania and what is good for our State. This is not a democratic decision. If you are hoping for "a 2nd MONA effect" - just remember that the first idea came from private enterprise, was done with private \$, on privately owned land 10 K north of the city !!!
331	4/06/2025	Robert	Campbell	I am against introducing a Bill to by pass the Project of State Significance planning process. Because of that position commenting on the wording is irrelevant. The effect of the Bill is to override the usual Acts and consultation processes and shift that activity to the permit conditions.Using politics to override planning processes, particularly when there is such a high level of community discontent, verges on autocracy and corruption.	The permit conditions appear to be comprehensive. Most require sign off by the Secretary of the Department of State Growth or delegate. It is difficult to see how the process will save time if it is done thoroughly and how one person will have sufficient expertise to pass judgement on all the heritage, environmental, cultural, planning and aboriginal matters. There is risk of political pressure being applied to speed up the process.	The driving factor behind this indecent haste is the contract signed with the AFL that imposes deadlines and penalties on the government. It is a dreadfully one sided document that needs renegotiation.It is not the dream of generations to have a stadium or a team.The stadium is just a football ground demanded by the AFL as an unfair condition to have a team in the League. All other benefits ascribed to it are conjecture. Build it and they will come is a cargo cult mentality	Funding private goods is not the business of government. Government should only provide a CSO to a private developer. Football teams are private goods. The stadium will be out of scale with Hobart's waterfront. Costs will be substantial. There are higher public priorities.. MPDC borrowing funds adds to public debt. AFL games are played on paddocks in the NT, WA & ACT and in the SA gather round. A roofed stadium is an unnecessary imposition.Let the planning process play out.
334	4/06/2025	Kerrie	Morrisby	Proposing a bill to navigate around standard development application processes in my opinion is a sign of a non-democratic govt. I do not approve of this tactic and believe the Premier of the day is wielding power that does not carry the support of the Tasmanian population and is "Captain's call". Tasmania does not have the population or ability to fund such an extravagant construction when there are alternatives. I note the Gather Round in SA used many ovals without stadiums or a roof.			I wish to voice my opinion that the siting of the stadium at Macquarie Point will overshadow our lovely city and wharf frontage. Simply it is the wrong place particularly for crowds intermixed with traffic congestion of the Brooker Hwy, Davey & Macquarie Streets. I support a football team for Tasmania but we should never have been held to ransom to provide a covered stadium. Please renovate Launceston's York Park (UTAS stadium) for now and avoid this monstrous debt.
345	5/06/2025	Adam	Peaty	I oppose the Enabling Legislation because: 1. The proposed stadium location has too many negative impacts on the surrounding environment and existing heritage values. 2. There are currently other more important funding priorities for the State Govt such as health, housing and education. 3. Construction of the stadium at this point in time would take away several thousand building workers from the local building industry which has a serious shortage of skilled workers.			
352	5/06/2025	Steve	MacDonald	I am absolutely in agreement to build a multiprocess stadium as hobart is the only capital city to not have one.	Tasmania has been waiting 35 years to have our own team in the afl, if the stadium doesn't get built then we will never get another chance, also people from Launceston should realise that Hobart is the capital of the state & that's where all major sports are normally played, even Townsville, Geelong & Dunedin in New Zealand all have stadiums which much smaller populations.		
353	6/06/2025	Antony	Cullimore	I do not agree with special legislation to fast track building the Stadium. It is unnecessary as we do not need a new Stadium	See above	See above	The AFL set conditions for Tasmania to “be allowed” to develop an AFL team to join the national competition. I believe they did this because they hoped it would kill our bid. Our record developing the new Spirit berth shows we do things badly. Let’s not forget we already have two Stadiums where AFL is currently played when teams visit. Why do we need to wreck what could be a delightful site for all by overfilling it with a stadium for a few.

356	6/06/2025	Cathy	Maloney	Macquarie Point Planning Permit Bill 2025	MACQUARIE POINT PLANNING PERMIT BILL 2025		There is no mandate from Tasmanians to approve this bill and go ahead with the stadium. The majority of Tasmanians do not want a stadium in Hobart. We want an AFL team but do not need the stadium. The cost is too high. The Tasmanian government should not have the power to amend planning schemes. The AFL should not be allowed to bully us into building a stadium that will cost almost \$1 billion. We have been told our state deficit is to increase. How crazy would we be to go ahead with this ide
358	7/06/2025	Mark Slater		I write in support of the Tasmanian Government’s Macquarie Point Planning Permit Bill 2025, released for public consultation on 27 May, 2025. The Bill, if passed into law by theTasmanian Parliament, will ensure that the construction of the stadium is expedited. The time for consultation and public debate is over. The stadium has been the subject of intense public and political scrutiny for more than two years. There are no new arguments, for or against, to be advanced. It is time to decide.			If it proceeds, the stadium will be one of the most transformative infrastructure projects in the state’s history, perhaps only surpassed in modern times by the new Bridgewater Bridge. The stadium will ensure Tasmania’s participation in the national AFL competition, revitalise the neglected Macquarie Point waterfront precinct and stimulate the Tasmanian economy through tourism and investment. It will also provide Tasmanians with an immense sense of pride in their capital city and their state.

380	7/06/2025	Adam	Bester	Bill I support the bill for the enabling legislation of the Macquarie Point Multipurpose Stadium. The proposed stadium represents a significant step forward in the development of Hobart’s infrastructure and sporting culture. Establishing a world-class, multipurpose venue at Macquarie Point not only enhances Tasmania’s capacity to host national and international sporting events—including AFL and cricket—but also provides a modern, flexible space for concerts, festivals, and community events.	I support the proposed permitting and conditions framework for the Macquarie Point Multipurpose Stadium, provided it continues to balance streamlined delivery with appropriate environmental, heritage, and community safeguards. It is important that the permitting process enables timely approvals to ensure the stadium is delivered on schedule, particularly in light of Tasmania’s opportunity to secure an AFL team and grow our national sporting profile.	The release of the associated report provides important context and rationale for the Macquarie Point Multipurpose Stadium, and I welcome the transparency of this approach. The report outlines the economic, social, and strategic justifications for the project, and I generally support the conclusions drawn—particularly in relation to the long-term benefits for Tasmania. These include: The opportunity to secure and sustain an AFL team, which would bring significant cultural and economic value.

If this gets knocked back I would seriously consider leaving my home, my Tassie and all the No sayers and no progress people behind. We are all sick of it.
421	8/06/2025	Julia	Gold	I absolutely support the Macquarie Point Multipurpose Stadium Bill	I support this as well.	Fully supported	This stadium will bring the state closer together once it's been constructed. Optus Stadium in Perth and the Adelaide Stadium both had detractors but they are stunning examples of what a state can do. Additionally, this stadium will boost the economy and provide employment opportunities for so many Tasmanians.
422	8/06/2025	Brendon	Tolman	Macquarie point stadium.	I agree and it should be built.	Build it.	Yes team and yes stadium.. build it
423	8/06/2025	Dominik	Ziomek	I support the Bill as written	I support the permit and conditions as written	The report provides a clear understanding of what has happened so far and what needs to happen to ensure a successful outcome	This Bill is nothing unique, new or out of the ordinary. Other States have raise similar Bills in the past and are doing so now for projects that need to be fast tracked for the benefit of the community.
425	8/06/2025	Andrew	Nichols	Macquarie Point Multipurpose Stadium Bill	Yes I support this bill	Yes I support this bill	We need to bring this state and more importantly our capital into the 21st century with a landmark development that will ensure not only success and pride for many but something that the state will be able to look on as a massive injection for tourism and effectively dollars coming into the state through many and varied channels and events on and off field

I have lived in Tasmania for over 40 years and recently had to move interstate for further career opportunities. Tasmania and its government needs to have a progressive approach to growth and jobs within the state, which is exactly what this project is. As a Tasmanian person I hate the lack of progressive attitudes demonstrated historically in our state. It holds the state and its people back from opportunities and growth. Build the stadium.

489	8/06/2025	Drew	Latham	Macquarie Point Multipurpose Stadium	Yes I support this Bill without question.	Yes I support this Bill. I see it as something hugely important to the future of our state. It's much more than football. The jobs this will generate cannot be underestimated. It will provide revenue. It will provide hope for children and reasons to stay in our great state. The football side of it is important too however. It's proven that Football clubs provide huge boosts to communities. It has to be built in the capital.. in the city.	This stadium is an investment and this saying is so appropriate for what it will do! Give a man a fish and you'll feed him for a day, teach a man to fish and you'll feed him for a lifetime.

519	8/06/2025	Paula	Preddy				Tasmania is already the laughing stock of the country. If we don't go ahead with this stadium, and therefore a team, we will be humiliated. This is an opportunity of a lifetime for our development as a state, our future, our youth. If the stadium/team does not go ahead, nothing will ever go ahead and the future for Tasmanians is bleak. We will be making plans to move to the mainland to secure our kids future.
520	8/06/2025	Ben	Sefton	Yes, I support the Bill.	Yes, I support the permit and conditions	Yes, I support the report.	This stadium will not only create an AFL team for Tasmania, it will help the construction industry and so much more. I run a small plumbing business, and at this current stage the construction industry in Tasmania has crashed and is going nowhere. Hurry up and build it please!
523	8/06/2025	Danielle	Rigby	I support the Macquarie Point Multipurpose Stadium Enabling Bill. It provides a vital legislative foundation to deliver a major piece of infrastructure that will benefit Tasmania economically, culturally, and socially. The Bill ensures clear governance and statutory authority over the stadium project, offering certainty to the community and stakeholders. It enables streamlined development while maintaining appropriate oversight and transparency.	I support the granting of permits for the Macquarie Point Stadium, provided conditions remain balanced and do not stifle progress. The current permit framework appears to responsibly address key issues such as heritage protection, environmental considerations, and traffic management. These are important — but so is progress. Macquarie Point is an underutilised urban site that needs revitalisation.	YES I support the stadium based on the report. The report rightly recognises the opportunity to reshape Mac Point as a cultural and social hub. I support the vision and encourage further collaboration with local artists, Indigenous communities, and event organisers to maximise benefit	I understand some people have concerns about cost, but this should be seen as a long-term investment in Tasmania's growth. The return on investment — through tourism, employment, and increased pride in our state — will be significant. We must stop saying Tasmania isn't big enough for bold ideas. We are. This stadium is a vote of confidence in our people and our future.

566	8/06/2025	Gregory	Hingston	Macquarie point multipurpose stadium			This stadium would be a economical gold mine for tasmania. We have waited 35 years to be able to have our Afl side and i urge the Government and councils to approve this. The benefits outway the negatives. It will pay for itself in the long run.
567	8/06/2025	Mark	Bassett	Yes	Yes	Yes	Build it for our future!
568	8/06/2025	Lisa	Doran	I support the Bill.	I support the permit and conditions.	I support the report.	This stadium is not only about football but giving the Tasmanian citizens other opportunities for performances to be brought to the State. I am strongly opposed to anything like social housing being built on the site.
569	8/06/2025	Jared	Watkins	I support the Bill as other States have introduced legislation for these type of projects and time is of the essence for The Devils.	I am comfortable with these conditions	Significant benefit for our State and confident any issues or negative impacts can be managed.	Let's do this for Tasmania!
571	8/06/2025	Rita	Oakley	I agree with the and wish for this legislation to pass immediately!	I agree with the and wish for this legislation to pass immediately! 592	8/06/2025	Abel	Kay	I support the Macquarie Point Multipurpose Stadium Enabling Bill as a necessary and forward-thinking piece of legislation that provides the legal framework to deliver a project of statewide significance. The Bill reflects a clear commitment to transparency, governance, and coordination between government, industry, and community stakeholders.	I support the approach taken in the Permit and Conditions documentation, which strikes a balance between enabling progress and maintaining appropriate environmental, planning, and design standards. The streamlined permit process is both reasonable and justified given the strategic importance of the stadium. It reduces red tape without compromising on due diligence, allowing the project to move forward in a timely manner while still being held to account on key deliverables.	The Report provides a comprehensive overview of the strategic rationale, planning context, and expected outcomes of the stadium project. It articulates clearly the broader economic, social, and cultural benefits for Tasmania, reinforcing why this project is necessary and timely.	I am one of thousands of people who was born and raised in Tasmania but ultimately left for more opportunity, along with two of my three siblings. It's time to for Tasmania. I know there are thousands of Tasmanians living interstate (owing to the great 'brain drain' of our state) who will support the stadium. Think about how MONA has changed the state. This could do the same and also so much more. For once in my life I want to be excited to be Tasmanian and this can do it.
593	8/06/2025	Phil	Arthur				This stadium is a once in a lifetime opportunity to financially setup tasmania for the next 40yrs. It just isn't about the footy team its about what it brings financially and with it tourism but most of all the long term employment benefits for our beautiful state. Just build it and they will come!!

706	8/06/2025	Lesley	Rowlands	I support the Bill	I support the permit and conditions	I support the Report	The multi use stadium will be the best investment that Tasmania has made in years. We need this for our future generations, we have to keep our kids here and have employment to keep our economy to grow, otherwise we will be one retirement village and Tassie will be once again the laughing stock of Australia.
707	8/06/2025	Joanna	King	Yes	Yes	Yes	Yes
708	8/06/2025	Trent	Cowen	Macquarie Point Multipurpose stadium Bill	Yes I support this bill	Yes I support this bill	The stadium must go ahead at Macquarie point. It will provide huge economic benefits to Tasmania and will enrich the lives of the people who attend events there. It's the perfect site for a stadium. Getting to and from the stadium will become part of the experience - walking from hotels, using public transport. We absolutely must have an AFL team and a stadium to support their business. Personally I think the stadium should be bigger.
709	8/06/2025	Glenn	Mitchell	I support this bill to enable construction of the Macquarie Point Stadium	I support the permit and conditions to enable construction of the Macquarie Point Stadium		This is a once in a lifetime opportunity to build something that will benefit all Tasmanians, not just those that support the AFL teams.

722	8/06/2025	Sandra	Smith	Yes I agree with this legislation/ bill being presented.	I agree with the permit and condition as per the legislation	I agree with the report as presented	The Macquarie Point multi purpose stadium and conference centre facility has the ability become the most important entertainment / tourist development in Tasmanian since Mona. Over the next 20 years or so, with further infrastructure development the benefits will extending state wide. This development is a once in our life time opportunity for us create something very special for future generations of Tasmanians! Please as a government, don` t mess this up for our children.
724	8/06/2025	Christine	Commane	Macquarie Point Multipurpose Stadium	Yes I support the submission	Yes I support the submission	Yes we need this stadium for the future of our children and all Tasmanians. Look to the future and all this Multipurpose Stadium can represent not only football but all other possibilities.
725	8/06/2025	Scott	Donaghy				When i was finishing school and studies in the 80’s, i saw so many young people of my age go to the mainland for opportunities and chase dreams that Tasmania couldn’t offer. It was a sad situation and i have seen very few of them return to the state other than to holiday and to see family. Now as a parent, i am now seeing the same thing. Young athletes are moving interstate to chase their AFL dreams when we have the opportunity to stop the drain. The stadium shouldn’t be a private concern.
726	8/06/2025	Dwayne	Fitzpatrick	Macquarie Point stadium	There shouldnt be any, just build it	Just build it	As a young Tasmanian business owner this is exactly what our state need to more foward and not get left behind

774	8/06/2025	Sandra	Brown	The Bill provides clarity and planning guidelines necessary to proceed with the multi-purpose Stadium. The Bill will help facilitate good planning principles and ensure the project works in conjunction with other relevant legislation. With strong design, heritage and environmental oversight in place the Bill ensures the project will meet the highest standards. I fully support the Bill.	I support the permit and conditions which takes into account environmental, cultural and economic factors. The project ensures that the land is finally put to productive use with the Stadium being part of a broader urban renewal vision that includes green spaces, cultural facilities, hospitality and improved public transpirt connections.	The report outlines the project and both positive and negative impacts. A great deal of research has gone into the development of the report which discusses all variables including environmental impact, economic impact, transport etc. I fully support the report and it's conclusions.	The multi-purpose Stadium will provide a world standard facility that will be able to host a range of sports and conferences. It is well beyond time that we had a venue of this type in Tasmania. The economic and social benefits are huge, injecting millions into out economy through tourism, construction, hospitality, job creation etc. Along with other benefits, this project is essential for our jouney into the AFL and I fully support the project and the Bill.

787	8/06/2025	Kim	Templeman	Yes I support the Macquarie Point Bill	Yes I agree with the permit and conditions	Yes I agree with the report	This multi purpose stadium is the catalyst for our state getting and maintaining competitive AFL Teams. As a multi purpose stadium it will attract other large gatherings which will generate revenue as will AFL football. The revenue this stadium as with other stadiums around Australia will be a huge benefit towards Tasmania’s revenue. It will be a facility that will give our young people an incentive to become involved in healthy activities .
788	8/06/2025	Sue	Morrison	Macquarie Point Multipurpose Stadium – Enabling Legislation			This needs to be approved and get on with it. This project will not only provide hundreds of jobs in the construction stage and permanent jobs once operational. The flow on financial and social benefits of an AFL license and team to the state is massive. Not since the hydro scheme has the state embarked on a project that has the potential to benefit so many Tasmanians. People on the mainland have already said they can't wait to travel here to watch a game or event.

We as a community must continue to grow and embrace change. This stadium and surrounding area will transform the Tasmanian economy for the next 50yrs.
834	8/06/2025	Katrina	Thompson	I support the Bill as it provides a clear, strategic pathway to deliver the stadium needed for Tasmania's AFL team and broader community use. It enables investment, job creation, and a national platform for Tasmanian sport, while giving certainty around project delivery.	The proposed permit conditions show a strong commitment to responsible development. They protect cultural heritage, ensure environmental care, and guarantee public access, making sure the stadium is built with community values and long-term sustainability in mind.	The report clearly outlines the benefits of the stadium and demonstrates that feedback, heritage, and community impact have been considered. It reflects a well-planned, multipurpose venue that will deliver wide-reaching benefits for all Tasmanians—not just AFL fans.	PLEASE let's build this! My children and I will look to leave the State if this does not go ahead to pursue greater opportunities. My 16 year old son has said all his friends have said the same thing. They need greater opportunities and something to aspire to and keep them here.

858	8/06/2025	wayne	nunn				As a supporter of Tasmania, not just the football team and stadium, I feel we have been left behind, forgotten about for to long. For too long we have sort to satisfy a minority, those that oppose or be opposition for what seems to be, just for the sake of it. We want indusdy and business to be attracted to Tasmania, we want interstate money being spent in Tasmania. When it comes to the AFL and sport in general, there are not many industries that compare. lets out Tassie on the map, built it.
859	8/06/2025	Todd	Pepper	I am in full support of the benefits of the stadium for our state	I am in full support of the stadium and it's massive benefits for the state	I am in full support for the stadium and it's massive benefits for the state	I am a born and bred Tasmanian and for the first time in my life embarrassed to say so. We must have this stadium for our future generations, for vibrancy in our state a for the many and varied benefits that it will bring.
861	8/06/2025	Robert	Siggins	Macquarie Point Multipurpose Stadium	Yes! I support this bill.	Yes! I support this bill.	Please pass this bill as Tasmania needs this project to push forward creating so many jobs for now and also the future. Tasmania needs this stadium for our Devils team to be competitive right from the start! Don't let it fail!
863	8/06/2025	Sean	Dunn	I am firmly against a stadium in Hobart, our state has ever spiralling debt and we have social issues that need addressing urgently	The area is unsuitable to the intended purpose	Report is biased	No stadium using public money, reduce state debt and help those in need of better education, healthcare, housing and the environment

877	8/06/2025	Jenna	Lowe				I fully support the team and stadium. My partner and I had our first child 3 weeks ago after a long journey and one of the first things we did after her birth was to sign her up as a Devils member. We long to be able to take her to the games at the stadium as a family. It's more than just a football team and a stadium. The people of Tasmania deserve this. A great investment for all and future generations. Please get it done.

897	8/06/2025	Brad	Westcott	Macquarie Point Multipurpose Stadium Bill	Yer I support the propossl	Yes I support the proposal	I understand the angst caused by the AFL in demanding the stadium being built at Macquarie Point which has annoyed a lot of people. Macquarie Point has layer dormant for over ten years and as soon as a proposal is put forward as happens in Tasmania the objectors come from out of the woodwork. As with everything in life there is give and take. This is not only about football or sports. I read their has been a 40% increase in interest by kids in Aussie Rules since the inception of The Tassie Devil

902	8/06/2025	Nicholas	Cummings	Macquarie Point Planning Permit Bill 2025			This bill tramples on the will on the Tasmanian people, as demonstrated in recent polling. We do not want this stadium We do not endorse the bypassing of normal planning processes and we do not want a bill such as this tabled while a 'consultation process' is still supposed to be taking place. Other events appear to have overtaken this bill for the moment. Still, it is self-evident that the AFL should have no right to dictate to Tasmania the terms and conditions they have.
903	8/06/2025	Andrew	Chamberlain	I support the enabling legislation for the Macquarie Point Multipurpose Stadium as an important step toward delivering a high-quality, future-focused facility for Tasmania. The Bill provides the necessary framework to progress a project with significant potential to boost economic activity, attract major events, and deliver long-term community benefits. I recommend the legislation proceed, with strong safeguards for transparency, environmental sustainability, and public access to ensure the stad	I support granting all necessary permits and conditions to ensure this project proceeds without delay. This development is critical for Tasmania's future, and it's important we move forward decisively—whatever it takes—to realise the full benefits for our community and economy.		While housing is an important consideration, development at Macquarie Point is unlikely to deliver genuinely affordable options due to its prime waterfront location. In practice, residential development here would primarily benefit higher-income individuals, rather than addressing broader housing need. In contrast, a multipurpose stadium offers a public asset accessible to all Tasmanians, activating the site in a way that promotes inclusion, economic activity, and statewide benefit

969	9/06/2025	E	Barsham				This entire stadium business is a total waste of a great amount of money. The state is wallowing in debt, unable to provide essential services adequately. Sports stadiums do not generate any income at all. Yes, there are social benefits, but Tasmania already has perfectly adequate facilities for sporting events. Forcing this thing through despite its cost, and changing legislation to bypass the regular planning process to do so, is irresponsible, immoral - and stupid.
970	9/06/2025	Paul	Clayton	How can you pass a bill still in the consultation process	We , the residents of Tasmania need to have a right to appeal. Everyone else has to abide by the rules . The proposed development is undoubtedly the best thing for Hobart. It is long overdue and we lag behind all other states. It will be multi purpose thereby benefiting everyone. It will be state of the art in design & features. A practical use of an area that is unsightly and will undoubtedly modernise the area. The construction phase will be great for the building industry as well. Multitudes of benefits to be had. Tasmania has to have this stadium built.
986	9/06/2025	DarylS	Belbin	Stadiums Tasmania Act 2022			I totally oppose the use of public property covered by this bill for a stadium. Given the prime location of this land, it must be set aside as public open space, with trees, shrubs, grass and public amenities (seating, toilets, sculptures), with some small areas for cafes or similar. To have the AFL dictate the proposed stadium is to me, obscene use of power that we the people should have control over for such significant riverside properties.

995	9/06/2025	SHARYN	LAWRENCE	I oppose the bill in its entirety as I have lived long enough in Tasmania (66 years) to know the folly of governments wishing that one-off projects or subsidised industries will 'rescue ' Tasmania from its economic problems. I refer to the white elephant that is the Launceston Velodrome, the failed Gunns Tamar Valley Pulp Mill proposal, the recent purchase and berthing plans of the replacement state ferries and even the 'indispensable' Franklin River dam and hydro scheme from last century.	I oppose the issuing of any permit that bypasses existing planning processes for short term political gain. A Tassie football team (and all Tasmanians) is being held hostage by a huge corporate business that never dreamed a Tasmanian government would ever seriously consider their outrageous conditions for admitting a Tassie team. They must have been as surprised as the rest of us when their demand for a roofed stadium in the heart of Hobart's heritage area was even being considered.	I found the Report was very considered, thorough and well balanced. It highlighted the complexity of the arguments against the Hobart centre stadium without demonising opponents as being simply anti the Tasmanian AFL team. It shows the decision is too complex and important for us to have to make it according to the AFL's forced, tyrannical timetable.	Overall, my arguments against the Hobart roofed stadium are due to 1. the arrogance of the AFL 2. the proposed cost of the stadium at a time of economic crisis 3. the location of the stadium in the centre of Hobart which will destroy cultural values, sightlines and the Hobart's individuality 4. lack of confidence in any state govt to deliver what it promises 5. the AFL and Tas gov using emotional blackmail and young Tas sportspeople as pawns in the AFL game of pretending to support a Tas team.

999	9/06/2025	Maree	Dorloff	The Macquarie Point Planning Permit Bill 2025 is a threat to Tasmanian democracy. Bringing this bill into law sets a dangerous precedent for future developments in Tasmania. The bills only purpose is to fast track the build of a multi purpose stadium at Macquarie Point by removing all impediments to that build including overriding certain Acts and extinguishing all rights to appeal. Basically the Tasmanian Government through this bill would be able to build the stadium without accountability.	The AFL's position is no stadium then no AFL team for Tasmania. This bill is designed to place responsibility for the building of the stadium in as few hands as possible with the least scrutiny and interference as possible. This means that only a select few will have input into its build. Passing of this bill will enable the stadium to be built by giving the relevant minister overreaching power to create more permits also without scrutiny or accountability.	This stadium is bad for Tasmania. The Tasmanian Government will not receive any direct revenue from the agreement while the AFL will receive direct revenue from its corporate spaces it insists our government builds into the stadium and its broadcasting rights. Tasmania and its people will carry the cost burden, costs that will go higher and higher, until eventually the Tasmanian Government can no longer afford the team. Then the AFL will disband it or relocate it as per the agreement.	This debacle is so cruel. All we want is an AFL team so we can say, just like other Australians can, that we too are part of and belong to a sport that is truly Australian. What will this stadium cost us? Our own team, the Royal Hobart regatta, years of crippling debt, a disfunctional government, our wharf, our democracy? How can we be denied? Our football is as old as Victoria's football. We don't need a stadium, we need acceptance of who we are. A small state with a big passionate heart.

One is studying speech pathology (degree not offered in full at UTAS), the other a qualified and experienced NICU nurse has moved to Brisbane to pursue a career with the Brisbane Lions AFL Team. They may never return, so we lose more young people that pay taxes to contribute to our society. This must be built.

1034	10/06/2025	Jenny	Scott	There is absolutely no need for this bill. I am truly disgusted that the Premier and Liberal Govt has taken upon itself to ignore the existing planning processes - even the Project of State Significance process, which the govt originally set up to subvert the planning system so as to favour developers and minimise public involvement in decisions which affect them. We do NOT NEED this stadium especially with the dire state the Tasmanian economy is in. We SHOULD have an AFL team! WITHOUT stadium.	We do NOT need or want this stadium - although we should have an AFL team - so the permit/conditions situation is irrelevant.	Reports by the Planning Commission and independent consultants such as Gruen and Eslake should be listened to by the government. To commission reports then ignore them when they do not tell the govt what it wants to hear is a travesty. Does the government think that we the public does not see this?	Please - I care about Tasmania and do not want to see this awful situation of bad governance continue. I want education, health, housing and the environment to be seen as more important than a ridiculously over-priced stadium. 1044	10/06/2025	Mathew	Bedford	In the interests of Tasmania, it is essential this bill is passed to ensure the timely delivery of this infrastructure.	The permit and conditions required to deliver this infrastructure should be supported at all levels of government to ensure there obstacles are limited in delivering the planned infrastructure.	The report clearly states the overwhelming benefits of this infrastructure to Tasmania.	Tasmania has the most incredible opportunity to deliver on the positively transformational piece of infrastructure in since the Hydro. Unfortunately, misunderstanding, misinformation and political opportunism has the potential to not only deny Tasmania this generational opportunity, but also to deplete business confidence, eliminate employment across multiple sectors, cause the state unprecedented embarrassment, deflate community morale, lose revenue and cost us our long awaited AFL team.

1057	10/06/2025	Chris	Anderson	I would not ordinarily support bills like this however we cannot let this debate divide the state further. The whole debate has been hijacked by people who have spread fear and doom and gloom and have created division and parochialism across the state. This needs to end ASAP to provide certainty and to begin to repair the state.	I agree with all the conditions for Tasmania to receive the AFL licence and for the stadium and Macquarie Point plan to occur. Tasmania needs this for the future and the delays and confidence being lost and the embarrassment being caused to the state is incredibly frustrating.	The existing report I find frustrating as it seems to have been heavily influenced by those against the project and not allowing positive voices to be heard properly. If the Tasmanian AFL licence is dependent on the stadium then the positives of the team and the benefits to the state should be included in the report with the benefits of the stadium and the whole picture be looked at.	I have been incredibly frustrated and disillusioned with the whole political process for this. This opportunity is likely to be lost forever and has been dragged out for far too long and has been divisive and filled with misinformation and misleading statements from those opposing which is going to take a very long time to repair whichever way it goes.

1074	11/06/2025	Lucy	Brown	I do not support the enabling legislation for the Macquarie Point Stadium. This bill prioritises a discretionary project over essential public needs such as healthcare, housing, education, and infrastructure. It will lock in future governments to an expensive and controversial development without sufficient community support or clear economic justification. The consultation process feels rushed and inadequate, and many Tasmanians still have unanswered questions about long-term cost, transparency	I am concerned about the scope of powers granted under the proposed legislation regarding permits and development conditions. It appears to enable fast-tracked planning decisions, reduced oversight, and potential overrides of existing environmental and heritage protections. This sets a dangerous precedent where public land and planning processes can be manipulated for political gain, rather than public good. There must be stronger safeguards and community veto options included.	The supporting reports have been heavily criticised for selective data use, overestimated economic benefit, and underreported costs. Independent analysis shows minimal long-term return on investment for stadium infrastructure in similar-sized regions. No transparent business case has adequately addressed ongoing operational costs, opportunity costs, or real community need. AFL admin will use most of those leaving the mug supporters	24000 strong to walk or bus in! Where will 800 buses wait during the game? 5)This stadium is in the wrong place-it must be 200 km north. Tasmania needs to be a state that builds things and gets things done that promote economic growth and provides opportunity for advancement. If we fail to build the proposed stadium at Macquarie Point the messaging to individuals and business at all levels will be "don't bother". We either take a great big step forward and build the stadium or accept that we will be an economic and social backwater with associated national pariah status perpetually.
1095	11/06/2025	Catherine	Nicholson	Section 34 of the proposed bill is an outrageous overreach by the government and makes a mockery of our planning system. The lack of any appeal rights over any aspect of this proposal and extinguishment of any appeal rights attached to and other relevant legislation makes our whole system of assessment and approvals with its checks and balances a nonsense. It sets a highly undesirable precedent for the assessment of any future large projects and undermines public trust in our planning system.	As a retired town planner and expert member of RMPAT I have always believed that permit conditions must be clearly understandable, so that the proponent and everybody else knows what needs to be done and who needs to do it . They also need to be enforceable. There are so many unknowns with this proposal still, that many of the conditions are very general statements of what we hope will be done. It's like a wish list of what should happen, not clear actions as to what must be done.	The draft report has good information but again so much is not definitely know that it is hard to assess. I understand that one of the floors of the proposed car park will now be removed. Does that mean there will now be two floors not three? How will that impact the amount of fill to be removed and truck movements to do that.? How will that impact the issue of soil contamination and removing contaminants? The devil is in the detail when assessing an application and there is not enough of it	I made a submission to the PoSS process re the Stadium and I support all of their concerns and findings re this proposed stadium. The proposed stadium is a good design on totally the wrong site and we definitely cannot afford it. I have no doubt that it will cost a lot more than what is being said, especially with som many unclear elements still.

1099	12/06/2025	George	Zam	I do not support this bill. This bill will undermine proper processes and institutions that underpin Tasmanian development planning and it threatens democracy. This bill appears to be a result of government not liking expert analyses and recommendations from Saul Eslake, Dr Nicholas Gruen and Tasmanian Planning Commission. I agree with their expert analyses and recommendations that this stadium proposal should not proceed for very good reasons.			I support mixed use development of prime land at Macquarie Point. A good example of harbour front development is Sydney's Darling Harbour precinct. Darling Harbour precinct is a mix of retail businesses, restaurants, entertainment venues, accommodation, fun parks and green spaces that cater for both tourists and local residents. I agree with Dr Gruen that a large stadium dominating Macquarie Point is poor use of such prime land and there is no economic business case for this stadium project.
1102	12/06/2025	M	Corbett	Enabling Legislation for the Macquarie Point Multipurpose Stadium	The concept of parliament attempting to have "enabling legislation" passed in parliament is unacceptable. My honest opinion is that it is undemocratic and at worst, a form of treason, since the people voted with the present laws in place and in the understanding that laws are there for a reason. Individuals cannot just change the rules when it pleases them so why should parliament think it has the right ! At the very least such changes in legislation must go to a referendum of the people.		Community Response to Macquarie Point Planning Permit Bill 2025 You have: • No integrity of process • No mandate • No social licence • No final plans • No final or reliable costings So, here's my say: Not only is Hobart the wrong place since there is a perfectly good stadium in Launceston which would satisfy all the conditions as well as. • No to Macquarie Point Planning Permit Bill • No to parliament acting as a planning authority • No blank cheque • No to a stadium at Macquarie Point
