Appalling idea

I am horrified at what Abetz is proposing to the city and the state I love and grew up in.

The monstrous structure would dominate the historic waterfront area and bankrupt the state.

York Park would be a much more suitable choice

I am appalled that the AFL has been allowed to hold Tasmania's sporting status to ransom and the Abetz would even contemplate turning his back on official bodies advising that the cost is unaffordable and the site inappropriate

There are so many crying needs in Tasmania that this proposal should have been put aside many months ago.

Not everybody loves football; 

Coralie Walker
